**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-33 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or obviously suggest the claimed invention.
2. Specifically, no teaching or obvious suggestion was found of the limitation " facilities including at least one of a coolant line carrying coolant to the chuck and an electrical power conductor conducting electrical power or control signals to the chuck, at least a portion of the at least one of the coolant line and the electrical power conductor being routed through an interior of the cord" as in claims 1,13-14,26, and 29.
3. Claims 2-12,15-25,27-28, and 30-33 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Pat No 6,740,894 issued to Mitchell et al; US Pat No 6,689,221 issued to Ryding; US Pat No 6,580,082 issued to Mitchell et al; and US Pat No 6,414,328 issued to Nussupov are considered relevant to the claimed invention.
